

GD16(DRIVE)

- Tear-resistance compound ensuring more resistance to cutting and chipping & chunking.
- Robust carcass construction supports for long lifetime and excellent resistance to possible damage in service to ensure the retreadability.
- Aggressive direction pattern design and open-lateral shoulder grooves maximize the traction.

Size	Pattern	LI&SI	PR	Weight(kg)	Tread Depth	Tread Width
12R22.5	GD16	152/149 J	18	73.0	24.0	252
